

ACCEPTANCE LETTER

ADVANCES IN ENVIRONMENTAL BIOLOGY

ISSN 1995-0756,

Paper title and Authors Name:

Investigating the effects of Agriculture Bank's micro-credits in developing animal husbandry production units of Yazd County

Mohammad Kheiry, Mohsen Delavari Parizi, Ali Amiri

Dear Author

After having carefully evaluated your article and taken the referees' advice into consideration, the editors came to the conclusion that your paper is suitable for publication in our Journal. As part of our evaluation process, we normally ask the opinion of two referees who are experts in the relevant field of research. The paper is also read by the editor. If both of the referees and an editor concur in their view, their decision is final. We consult a third referee if there is a difference of opinion. The choice of referees and the fact that we require a consensus view between the referees and an editor ensures, however, that the process is as fair as possible.

Your article has been accepted for publication based on the reports of two referees and will be Published in **ADVANCES IN ENVIRONMENTAL BIOLOGY (12) Special issue 2014.**

Thank you very much for choosing us as an outlet for publishing your research.

Yours sincerely,

Founder President of American-Eurasian Network for Scientific Information
